Exploring Science with Ms. Lindsey

**Description:**

Join Ms. Lindsey for an exciting five-day journey into the world of science, where kids become real scientists! Through hands-on experiments, young explorers will question, research, hypothesize, experiment, analyze data, draw conclusions, and communicate their discoveries—just like professionals in the field.

Each day, students will dive into interactive activities that spark curiosity and creativity. From bubbling chemical reactions to physics in motion, every experiment will encourage critical thinking and problem-solving. Whether testing ideas, making observations, or sharing results, kids will develop essential scientific skills in a fun and engaging way.

Get ready to think, explore, and discover—because science is all about asking questions and finding answers in the most exciting ways!
